

Description

Lightweight, breathable nonwoven fabric shoe cover with traction and an ESD dissipative ribbon with a surface resistivity of 100,000 to 1,000,000 ohms. Elastic band around ankle allows for a one-size-fits-most fit. Cleanroom validated/certified.

Applications

- High Tech
- Electronics Manufacturing
- Data Centers
- Cleanrooms
- Research & Development

Features

- Lightweight & Breathable
- ESD Dissipative
- Traction

Specifications

- 5.5" H x 14" L
- Case of 3,000

Physical Characteristics

Property	Typical Values
Spunbound Polypropylene	28g/m ²
Traction Pattern	1.2g/m ²
ESD Surface Resistivity	100,000 - 1,000,000 ohms

Certification

Approved for use in cleanrooms up to Class 100 and Class 5 per Federal Standard 209E and ISO STD. 14644-1, as certified by Ultraclean Products Approval Laboratory.
